

# Arlington Place

Arlington Place of Oelwein offers respite services in our Assisted Living setting to your patients who may need a short term stay to recuperate from an illness or surgery and/or requires immediate placement. Arlington Place provides a fully furnished apartment and all services are provided in one daily rate.

Our RN will work closely to coordinate services and

care. Prior to move-in our RN will meet individually with each prospective resident to determine service needs through our assessment process in order to ensure continuity of care, as well as meeting the criteria for Assisted Living. Arlington Place works with therapy providers and home health agencies to provide on-site services as needed to help each resident meet their goals.
